Unlock Your Lab Potential

1<sup>ST</sup> QUARTER 2024

# >> Products from Better Basics make laboratories safer and more efficient for the future. «

Better Basics Laborbedarf offers the **SmartRack**®, the world's first organisation system for laboratory workstations. **The modular organisation system SmartRack**® improves **order** and the **organisation** of the laboratory workstation **through modularity** and enables,

- increased availability of the limited workspace
- increased process quality with increased efficiency and
- improved productivity at lower costs as well as
- increased safety through the strengthening of occupational safety

to be achieved and secured in the long term. The SmartRack® laboratory organisation system - **universally applicable for sitting and standing activities** in the laboratory.

## **About Us**

# We help you achieve your goals in research, analysis and laboratory work through laboratory organization

At Better Basics, we develop, manufacture and distribute smart basic equipment for laboratories.

You are always working on new challenges and are looking for a solution for your laboratory organization that

- · creates order
- · saves space
- · increases safety
- increases efficiency
- is modular
- and extendible?

With all these goals, you don't want to lose sight of profitability and cost efficiency? We offer the world's only modular organization system for laboratory environments, where users from the fields of chemistry, biology, biochemistry, food chemistry, pharmacy and medicine alike can work optimally.

### Laboratory organization from the 3D printer

Our innovative products, such as the SmartRack®, a modular organization system for laboratory workstations that creates order and thus improves work safety and increases user efficiency, are manufactured via 3D printing.

That is why we are able to provide you with individual components. Starting with the basic equipment up to superstructures for special applications, our products and modules can be extended and combined as desired.

Together with our partners, we strive to offer you the equipment for a safe and efficient laboratory.

# SmartRack® - Modular Organization System

### The SmartRack®?

### What exactly is the SmartRack®?

The SmartRack® is the world's first laboratory organisation system which creates order at the workstation through the structured and secure storage of laboratory glassware and laboratory accessories and, at the same time, generates space savings of up to 80%. This has the advantage that accidents at work are avoided and there is practically no sample confusion. This increases the efficiency of laboratory work, which means a significant impact on the company's success.

### Can the SmartRack® be used in every laboratory?

Yes. The SmartRack® is made up of a sturdy metal frame and plastic modules which have been manufactured using the SLS 3D printing process. This makes the SmartRack® flexible to use. Whether in the fume hood, the safety cabinet or on normal laboratory benches, the SmartRack® can be used on any even work surface.

# How does the SmartRack® work as a laboratory organisation system?

- The stable body of the SmartRack® is set up at the workstation in the laboratory fume hood, in the laboratory safety cabinet or on the workbench. No further preparatory work or preparations are necessary for this. Several cross connectors, also called slot rails, are mounted in the SmartRack® frame, into which the module holders can be flexibly inserted.
- The slot rails can be hooked into the SmartRack® frame at various heights and depths, which creates maximum flexibility when equipping the SmartRack®.
- The SmartRack® module holders are hooked into the slot rails using a click mechanism. In this way, the module holders are securely and reliably fixed and immediately allow you to store laboratory glassware, samples or laboratory work equipment as well as digital work equipment such as barcode scanners and tablets in them.

### More safety through more order and up to 80% space savings

# Current state WITHOUT SmartRack® \* Disorder \* Clutter \* Accident hazard \* Inefficiency

# Target state WITH SmartRack® ✓ Improved Order ✓ Free Workspace ✓ Improved occupational safety ✓ Increased efficiency by 30% through optimized workplace organization

# SmartRack® - Modular Organization System

### The SmartRack® supports you:

- As safe as possible, as flexible as necessary:
   laboratory users can adjust both the height and the depth of the slot rails. The module holders suspended in the slot rails can be moved horizontally within the slot rail.
- User-friendly & ergonomic: The one-handed equipping and removal of the laboratory equipment and samples from the SmartRack®, within the user's gripping range, greatly simplifies and speeds up access.
- Lean Management and quality management systems such as 5S can be implemented and applied concretely in the laboratory environment with the SmartRack®: The SmartRack® guarantees more order and cleanliness at the workstation and changes behaviour at the laboratory workstation.

- Time-saving: Materials and laboratory equipment are provided exactly where they are processed and needed. So the SmartRack® reduces walking distances and time needed to search throughout the user's laboratory.
- Space-saving: By using the room height, the SmartRack® creates new storage areas. So the SmartRack® multiplies the available working space in the gripping area, reaching area and stretching area.

### Saving space - new labs

Each SmartRack® saves €5.200 in investment costs for the construction of a new laboratory, because by using a SmartRack®, a space saving of about 1 m² laboratory space can be assumed.

www.new-labs.better-basics-laborbedarf.de

### Saving space - existing labs

The SmartRack® enables a more efficient use of space in existing laboratories and therefore up to 80% space savings at the laboratory workstation, which in turn creates free work space.

www.existing-labs.better-basics-laborbedarf.de

### Efficiency

By using the SmartRack®, an increase in efficiency of up to 10% is achieved by optimising working hours during the test execution as well as during assembly, disassembly and cleaning. The SmartRack® is therefore the ideal system for supporting LEAN management models in laboratories.

www.efficiency.better-basics-laborbedarf.de

### **Occupational safety**

The world's only laboratory organisation system as your guarantor for safety and ergonomics in the laboratory workplace. The SmartRack® meets all applicable specifications in the laboratory area according to DIN, DGUV and TRGS.

www.safety.better-basics-laborbedarf.de

# SmartRack® - Configuration

### 1. Selection of pre-configurations

Basic Equipment, Biology, Chemistry, Pipetting Set, Consumables, etc.

### OR

### 2. Customised configuration

2.1 <u>Frame size and frame type selection:</u>

SmartRack® classic (mini) or SmartRack® primus (mini)

holders and storage box and storage box inserts

if required further slot rail, drip tray or protective cover

# Configuration of a personalized SmartRack® (left) plus modules (right)

Image above: SmartRack®

Images above: Selection of modules

Each SmartRack® classic (article number 01704) or SmartRack® classic mini (article number 01707) is already delivered ex works with the following accessories

- → 1 x Pair of feet
- → 1 x Drip tray
- → 3 x Slot rails each with handles
- → 1 x Frame

# SmartRack® | Frame size and frame type

### SmartRack® classic

The SmartRack® classic was developed for use at many different laboratory workstations and especially for work in fume hoods. The SmartRack® classic mini is specially designed for work in safety cabinets. It consists of an aluminium frame with a black epoxypolyester-based powder coating. Every third slot rail holder on both sides of the SmartRack® classic frame has a recess at the front to make it easier to align the slotted rails horizontally.

The SmartRack® classic mini includes the following components:

- 1 x frame incl. one pair of rear shortenable feet with tray holder
- 3 x slot rails each with handles
- 1 x drip tray

Size comparison SmartRack® classic (left) and SmartRack® classic mini (right):

Item	Туре	PU	Item no.	Price in EUR
SmartRack® classic	635 x 615 x 265 mm (WxHxD)	1	01704	699,00
SmartRack® classic mini	420 x 380 x 265 mm (WxHxD)	1	01707	499,00

If you need a SmartRack® with special size requirements or custom brackets, please contact us at contact@better-basics.de.

# SmartRack® | Frame size and frame type

### SmartRack® primus

The SmartRack® primus is the affordable entry-level version into the smart world of laboratory equipment from Better Basics. It was developed for use at many different laboratory workstations and in particular for work at the fume hood. The SmartRack® primus mini is specially designed for working on the safety cabinet. It consists of an uncoated, polished aluminium frame. Every third slot rail holder on both sides of the SmartRack® primus frame has a recess at the front to make it easier to align the slotted rails horizontally.

The SmartRack® primus comprises the following components:

- 1 x frame incl. one pair of aluminium feet
- 2 x slotted rails incl. two handles on each side

Size comparison SmartRack® primus (left) and SmartRack® primus mini (right):

Item	Туре	PU	Item no.	Price in EUR
SmartRack® primus	635 x 615 x 265 mm (WxHxD)	1	01711	449,00
SmartRack® primus mini	420 x 380 x 265 mm (WxHxD)	1	01712	299,00

If you need a SmartRack® with special size requirements or custom brackets, please contact us at contact@better-basics.de.

### SmartRack® mini Pipetting Set

The SmartRack® mini Pipetting Set has been specially designed for working with liquids in small quantities and includes the following components (item number of the individual components in brackets for better understanding):

### 9 components:

- 1 x SmartRack® classic mini (Item no. 01707)
- 1 x Holder for bin liner (Item no. 01202)
- 1 x Holder for pipettes for 3 pipettes with hook (Item no. 01145)
- 2 x Holder for pipette tip boxes (Item no. 01147)
- 2 x Holder for laboratory screw top bottles, 100 - 1000 ml (GL45) (Item no. 01122)
- 2 x Holder for well plates (Item no. 01125)

### Detailed views of the individual components included:

Item no. 01707

Item no. 01202

Item no. 01145

Item no. 01147

Item no. 01122

Item no. 01125

Trash bag, pipettes, pipette tip boxes, laboratory screw top bottle and well plates not included in scope of delivery

Item	PU	Item no.	Price in EUR
Price of the individual modules:	9	var.	968,92
Price advantage:			69,92
SmartRack® mini Pipetting Set, bundle price:	1	01512	899,00

### **SmartRack® Basic Equipment**

The SmartRack® Basic Equipment is a basic set for organising basic accessories in everyday laboratory use and includes the following components (item number of the individual items in brackets for better understanding):

### 6 components:

- 1 x SmartRack® classic (Item no. 01704)
- 1 x Holder for bin liner (Item no. 01202)
- 1 x Storage box (Item no. 01142)
- 1 x Holder for kitchen roll (Item no. 01162)
- 1 x Holder for glove / tissue boxes (Item no. 01143)
- 1 x Holder for wash bottles, for 500 ml (up to Ø 75 mm) (Item no. 01146)

### Detailed views of the individual components included:

Item no. 01704

Item no. 01202

Item no. 01142

Item no. 01162

Item no. 01143

Item no. 01146

Small accessories, trash bag, tissue box, wash bottle and kitchen roll not included in scope of delivery

Item	PU	Item no.	Price in EUR
Price of the individual modules:	6	var.	1.078,95
Price advantage:			79,95
SmartRack® Basic Equipment, bundle price:	1	01506	999,00

### SmartRack® Starter Set Biology

The SmartRack® Starter Set Biology has been specially designed for work in the field of biology and includes the following individual components (item number of the individual component in brackets for better understanding):

### 8 components:

- 1 x SmartRack® classic (Item no. 01704)
- 2 x Holder for laboratory screw top bottles, 100 - 1000 ml (GL 45) (Item no. 01122)
- 2 x Storage box (Item no. 01142)
- 1 x Holder for pipettes for 3 pipettes with hook (Item no. 01145)
- 1 x Holder for pipette tip boxes (Item no. 01147)
- 1 x Holder for microliter syringes (Item no. 01155)

### Detailed views of the individual components included:

Item no. 01704

Item no. 01122

Item no. 01142

Item no. 01145

Item no. 01147

Item no. 01155

Laboratory screw top bottle, pipettes, pipette tip box and microliter syringes not included in scope of delivery

Item	PU	Item no.	Price in EUR
Price of the individual modules:	8	var.	1.203,93
Price advantage:			104,93
SmartRack® Starter Set Biology, bundle price:	1	01507	1.099,00

### **SmartRack® Starter Set Chemistry**

The SmartRack® Starter Set Chemistry has been specially designed for work in the field of chemistry and includes the following components (item number of the individual components in brackets for better understanding):

### 8 components:

- 1 x SmartRack® classic (Item no. 01704)
- 2 x Holder for glassware with ST14, plus closure (Item no. 01112)
- 2 x Holder for glassware with ST29, plus closure (Item no. 01115)
- 2 x Holder for chromatography column,
   Ø 25 35 mm (Item no. 01107)
- 1 x Storage box (Item no. 01142)

### Detailed views of the individual components included:

Item no. 01704

Item no. 01112

Item no. 01115

Item no. 01107

Item no. 01142

Glassware and chromatography column not included in scope of delivery

Item	PU	Item no.	Price in EUR
Price of the individual modules:	8	var.	1.178,93
Price advantage:			79,93
SmartRack® Starter Set Chemistry, bundle price:	1	01508	1.099,00

### **SmartRack® for Consumables**

The SmartRack® for Consumables has been specially designed for the provision of consumables at the laboratory workplace and comprises the following components (item number of the individual components in brackets for better understanding):

### 12 components:

- 1 x SmartRack® classic (Item no. 01704)
- 1 x Dispenser for Parafilm® rolls (Item no. 01171)
- 1 x Dispenser for adhesive tapes (Item no. 01172)
- 3 x Holder for glove / tissue boxes (Item no. 01143)
- 1 x Holder for bin liner (Item no. 01202)
- 3 x Holder for wash bottles, for 500 ml (up to Ø 75 mm) (Item no. 01146)
- 1 x Holder for kitchen roll (Item no. 01162)
- 1 x Slot rail with handles (Item no. 01601)

### Detailed views of the individual components included:

Item no. 01171

Item no. 01172

Item no. 01143

Item no. 01202

Item no. 01146

Item no. 01162

Item no. 01601

Parafilm® rolls, adhesive tapes, glove / tissue boxes, bin liner, wash bottles and kitchen roll not included in scope of delivery

Item	PU	Item no.	Price in EUR
Price of the individual modules:	12	var.	1.673,89
Price advantage:			174,89
SmartRack® for Consumables, bundle price:	1	01509	1.499,00

### SmartRack® for Life Science

The SmartRack® for Life Science has been specially designed for work in the fields of biology, biomedicine, biotechnology as well as special fields of biology and for handling liquids in small quantities and preparing and storing samples for later analysis. It includes the following components (item number of each component in brackets for better understanding):

### 16 components:

- 1 x SmartRack® classic (Item no. 01704)
- 1 x Holder for bin liner (Item no. 01202)
- 1 x Storage box (Item no. 01142)
- 1 x Storage box insert for small accessories (Item No. 01148)
- 1 x Storage box insert for microreaction vessels, 20 x 2 ml (Item no. 01130)
- 1 x Storage box insert for centrifuge tubes,
   6 x 15 ml, 4 x 50 ml (Item no. 01102)
- 2 x Holder for laboratory screw top bottles, 100 - 1000 ml (GL45) (Item no. 01122)
- 2 x Holder for well plates (Item no. 01125)
- 1 x Holder for wash bottles, for 500 ml (up to Ø 75 mm) (Item no. 01146)
- 1 x Holder for pipettes for 3 pipettes with hook (Item no. 01145)
- 2 x Holder for pipette tip boxes (Item no. 01147)
- 1 x Dispenser for Parafilm® rolls (Item no. 01171)
- 1 x Slot rail with handles (Item no. 01601)

### Detailed views of the individual components included:

SmartRack® for Life Science, bundle price:	1	01510	1.549,00

### SmartRack® for Chromatography

The SmartRack® for Chromatography has been specially designed for substance separation tasks by means of column chromatography and comprises the following components (item number of the individual components in brackets for better understanding):

### 17 components:

- 1 x SmartRack® classic (Item no. 01704)
- 1 x Storage box (Item no. 01142)
- 1 x Storage box insert for small accessories (Item no. 01148)
- 1 x Storage box insert for sample containers and test tubes, 12x Ø 10 - 20 mm (Item no. 01160)
- 1 x Storage box insert for sample containers and test tubes, 20x Ø 3 10 mm (Item no. 01161)
- 6 x Holder for chromatography column,
   Ø 25 35 mm (Item no. 01107)
- 1 x Holder for wash bottles, for 500 ml (up to Ø 75 mm) (Item no. 01146)
- 1 x Holder for microliter syringes (Item no. 01155)
- 2 x Holder for laboratory screw top bottles, 100 - 1000 ml (GL45) (Item no. 01122)
- 1 x Holder for glove / tissue boxes (Item no. 01143)
- 1 x Slot rail with handles (Item no. 01601)

Item no. 01161

Item no. 01143

Item no. 01601

Chromatography columns, wash bottle, microliter syringes, laboratory screw top bottles, small accessories, sample containers and test tubes, glove / tissue box not included in scope of delivery

Item	PU	Item no.	Price in EUR
Price of the individual modules:	17	var.	1.823,84
Price advantage:			124,84
SmartRack® for Chromatography, bundle price:	1	01511	1.699,00

### Storage box

The module is the basis for storing and fixating various smaller laboratory equipment. The storage box can hold a maximum of three storage box inserts, which can be arranged and combined as required. Alternatively, the storage box can also be used without storage box inserts.

Item	Туре	PU	Item no.	Price in EUR
Storage box	for 2 storage box inserts	1	01185	69,99
Storage box	for 3 storage box inserts	1	01142	79,99

### Storage box insert - for small accessories

The module can be inserted as required into the storage box and enables easy storage and fixation of small accessories (e.g. pens, spatulas or tweezers).

Storage box and small accessories not included in scope of delivery

Item	PU	Item no.	Price in EUR
Storage box insert – for small accessories	1	01148	59,99

### Storage box insert - for microreaction vessels

The module can be inserted as required into the storage box and enables easy storage and fixation of microreaction vessels.

Storage box and microreaction vessels not included in scope of delivery

Item	Type	PU	Item no.	Price in EUR
Storage box insert – for microreaction vessels	32 x 0,5 ml	1	01104	59,99
Storage box insert – for microreaction vessels	20 x 2 ml	1	01130	59,99

### Storage box insert - for sample containers and test tubes

The module can be inserted as required into the storage box and enables easy storage and holding of sample containers and test tubes. It is equipped with a spring mechanism that provides a secure hold for sample vials and test tubes of different diameters.

Storage box, sample containers and test tubes not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Storage box insert – for sample containers and test tubes	20 x Ø 3 - 10 mm	1	01161	59,99
Storage box insert – for sample containers and test tubes	15 x Ø 8 - 12 mm	1	01181	59,99
Storage box insert – for sample containers and test tubes	12 x Ø 10 - 20 mm	1	01160	59,99
Storage box insert – for sample containers and test tubes	8 x Ø 18 - 22 mm	1	01182	59,99
Storage box insert – for sample containers and test tubes	6 x Ø 20 - 30 mm	1	01159	59,99

### Storage box insert – for centrifuge tubes

The module can be inserted as required into the storage box and enables easy storage and fixation of centrifuge tubes.

Storage box and centrifuge tubes not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Storage box insert – for centrifuge tubes	12 x 15 ml	1	01128	59,99
Storage box insert – for centrifuge tubes	6 x 15 ml, 4 x 50 ml	1	01102	59,99
Storage box insert – for centrifuge tubes	6 x 50 ml	1	01129	59,99

### **Barcode scanner holder**

The module enables easy attachment of a barcode scanner.

Barcode scanner not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Barcode scanner holder	suitable for scanners such as Newland NLS-HR22 and Aplic 304674	1	01163	74,99

### Holder for chromatography column

The module allows effortless attachment of chromatography columns. The bracket adjusts to the column circumference via a snap-in mechanism to provide a secure fit. If the length of the suspended equipment exceeds 15 cm, we recommend the use of additional holder modules, stacked in the required number, to ensure the stability of the set-up. Both the outside of the chromatography column and the silicone covers of the chromatography column holders must be clean and free of dust and grease.

Chromatography column not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for chromatography column	Ø 5-10 mm	1	01177	69,99
Holder for chromatography column	Ø 10 - 15 mm	1	01176	69,99
Holder for chromatography column	Ø 15 - 25 mm	1	01165	69,99
Holder for chromatography column	Ø 25 - 35 mm	1	01107	69,99
Holder for chromatography column	Ø 35 - 46 mm	1	01139	69,99
Holder for chromatography column	Ø 46 - 56 mm	1	01179	79,99

### Holder for Erlenmeyer flasks

The module allows easy attachment of conical flasks with a beaded rim. The curved front means the conical flask is securely fixed in the module and is protected against falling out.

Erlenmeyer flask not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for Erlenmeyer flasks	Erlenmeyer flasks, Wide neck 25 ml, 100 ml, Erlenmeyer flasks, Narrow neck 250 ml, 500 ml	1	01108	69,99
Holder for Erlenmeyer flasks	Erlenmeyer flasks, Wide neck 250 ml, 500 ml, 1000 ml, Erlenmeyer flasks, Narrow neck 2000 ml, 3000 ml, 5000 ml	1	01140	69,99

### Holder for glassware with standard taper

The module allows easy attachment of glassware with standard ground joint ST14. The specially shaped recess prevents the glassware from falling out. Please note the information on standard ground joint tolerances of various standard taper (ST) on page 47.

Glassware not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for glassware with ST14	1	01111	49,99
Holder for glassware with ST29	1	01114	49,99

### Holder for glassware with standard taper, plus closure

The module corresponds to the module holder for glassware with ST14, but is also equipped with a rotable locking ring that protects glassware with standard joint ST14 against falling out. Please note the information on standard ground joint tolerances of various standard taper (ST) on page 47.

Glassware not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for glassware with ST14, plus closure	1	01112	64,99
Holder for glassware with ST29, plus closure	1	01115	64,99

### Holder for glassware with standard taper, extended

The module corresponds in design and function to the module holder for glass devices with ST14. However, the extended version is particularly suitable for easily hanging particularly large round-bottomed flasks or separating funnels, for example. Please note the information on standard ground joint tolerances of various standard taper (ST) on page 47.

Glassware not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for glassware with ST14, extended	1	01113	59,99
Holder for glassware with ST29, extended	1	01116	59,99

### Holder for glove / tissue boxes

The module allows easy attachment of glove or tissue boxes. The width of the bracket can be adjusted as required and adapted to the size of different boxes. Being able to pull out these consumables towards you makes it easy to remove them even when the box is low.

Glove / tissue box not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for glove / tissue boxes	1	01143	89,99

### Holder for cannula disposal container

The module enables the simple insertion of a cannula discharge box.

Cannula disposal container not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for cannula disposal container	1	01174	49,99

### Holder for kitchen roll

The module enables easy hanging of kitchen rolls. The roll can rotate in the module, ensuring single or multiple sheets can be unrolled easily.

Kitchen roll not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for kitchen roll	1	01162	89,99

### **Holder for cuvettes**

The module makes it easy to store and fix cuvettes. Due to the special shape of the recesses, the side surfaces of the cuvette do not come into direct contact with the holder. The dimensions given refer to the layer thickness of the cuvette.

Cuvettes not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for cuvettes	10 x (10 mm x 10 mm)	1	01183	59,99

### Holder for laboratory screw top bottles

The module enables easy attachment of laboratory screw top bottles. The module is equipped with a rotable locking ring, which provides additional protection for the laboratory screw top bottles against falling out.

Laboratory screw top bottle not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for laboratory screw top bottles	10 - 25 ml (GL25)	1	01120	64,99
Holder for laboratory screw top bottles	50 ml (GL32)	1	01121	64,99
Holder for laboratory screw top bottles	100 - 1000 ml (GL45)	1	01122	64,99

### Holder for microliter syringes

The module allows three microliter syringes to be safely attached. The snap-in mechanism provides a secure hold for the attached microliter syringes. The shape of the module shields the needles of the microliter syringes and thus protects the user against accidental contact with the tip of the needle.

Microliter syringes not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for microliter syringes	1	01155	89,99

### Holder for bin liner

The module allows easy attachment of bin liners for small waste. Contamination can be prevented by disposing of waste directly where you are working.

Bin liner not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for bin liner	1	01202	59,99

### **Holder for pipettes**

The module allows easy attachment of pipettes. The pipette tips are not affected and therefore not contaminated.

Pipettes not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for pipettes	for Eppendorf Multipette $^{\rm @}$ E3 / E3x / stram / Xstream	1	01189	59,99
Holder for pipettes	for Eppendorf Reference®	1	01164	49,99
Holder for pipettes	for Eppendorf Reference® 2	1	01168	49,99
Holder for pipettes	for Gilson® PIPETMAN® Classic / G	1	01166	49,99
Holder for pipettes	for INTEGRA VIAFLOW or for INTEGRA VOYAGER	1	01184	49,99

### Holder for pipettes with hook

The module allows easy attachment of up to three pipettes with hook. The pipette tips are not affected and therefore not contaminated.

Pipettes not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for 2 pipettes with hook	1	01180	64,99
Holder for 3 pipettes with hook	1	01145	69,99

### Holder for pipette tip boxes

The module enables easy attachment of pipette tip boxes from different manufacturers and of different sizes. Due to a magnet integrated in the module and a magnetic stainless steel round inserted by the user into the pipette tip box, the secure hold of the pipette tip box is ensured. Additional stainless steel rounds can be ordered for working with multiple pipette tip boxes.

Pipette tip box not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for pipette tip boxes	1	01147	54,99
Stainless steel round for insertion into pipette tip boxes	1	01167	2,99

### Holder for pipetting aid

The module enables the safe attachment of a pipetting aid.

Pipetting aid not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for pipetting aid	for Eppendorf Easypet® 3	1	01203	59,99
Holder for pipetting aid	for HIRSCHMANN® pipetus®	1	01188	59,99
Holder for pipetting aid	for INTEGRA Pipetboy 2	1	01154	59,99
Holder for pipetting aid	for INTEGRA Pipetboy pro	1	01156	59,99
Holder for pipetting aid	for BRAND accu-jet® pro	1	01178	59,99
Holder for pipetting aid	for BRAND accu-jet® S	1	01157	59,99
Holder for pipetting aid	for Thermo Scientific Matrix	1	01186	59,99
Holder for pipetting aid	for TPP Turbo-Fix	1	01207	59,99
Holder for pipetting aid	for VWR® Powerpette Pro	1	01199	59,99

### Holder for separating funnel / shaking funnel

The module allows easy attachment of separating funnels / shaking funnels.

### Note:

The diameter of the separating funnel / shaking funnel is measured at its widest point

Separating funnel / shaking funnel not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for separating funnel / shaking funnel	Ø 45 - 85 mm	1	01152	59,99
Holder for separating funnel / shaking funnel	Ø 85 - 105 mm	1	01149	59,99
Holder for separating funnel / shaking funnel	Ø > 105 mm	1	01153	59,99

### **Holder for sensor systems**

The module enables the safe attachment of a sensor system

Sensor system not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for sensor systems	for essentim spider	1	01205	79,99

### Holder for open fronted storage bins

The module enables the safe attachment of open fronted storage bins or stacking boxes with a mounting edge, which typically serves as a holding device for wall rails and shelving systems.

Open fronted storage bins not include in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for open fronted storage bins	Suitable for storage bins such as SCHÄFER LF110, LF210, LF211, LF220	1	01158	69,99

### Holder for wash bottles

The module enables easy attachment of wash bottles. The module can also be used to store screw top bottles of similar sizes.

Wash bottle not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Holder for wash bottles	for 500 ml (up to ø 79 mm)	1	01146	59,99
Holder for wash bottles	for 1000 ml (up to ø 99 mm)	1	01173	69,99

### **Holder for tablet**

The module allows easy attachment of tablets in portrait and landscape format. The tilted angle ensures good visibility and good usability of the display. The module can be adjusted to different tablet sizes via a locking mechanism, which can be adjusted in increments.

Tablet not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for tablet	1	01124	99,99

### Holder for well plates

Well plates can be inserted into the module and also stacked. The horizontal orientation ensures optimal storage, e.g. of cell cultures.

Well plate not included in scope of delivery

Item	PU	Item no.	Price in EUR
Holder for well plates	1	01125	49,99

### Shelf

The shelf can be used to store laboratory equipment, glassware and consumables up to a total weight of 3 kg, providing additional storage space for those items that cannot be stored in the SmartRack® support modules.

Item	PU	Item no.	Price in EUR
Shelf	1	01193	119,99

### **Back-to-back connectors**

The back-to-back connectors for the SmartRack® enable two SmartRack to be securely connected and thus used as a isolated solution. With the rear foot sections removed, two SmartRack can be securely connected by simply attaching the connectors to the horizontal or diagonal braces of the frame rear panel. A set consists of three individual back-to-back connectors.

Item	PU	Item no.	Price in EUR
Back-to-back connectors for SmartRack®	1	01614	79,99

### Dispenser for adhesive tapes

The tape or labeling tape dispenser is designed to hold up to 6 rolls with a core hole diameter of approximately 25 mm (1 inch) or approximately 76 mm (3 inches) with a total width of up to 160 mm. It is made of powder-coated steel, polyamide 12 and stainless steel. The serrated cutting device for easy cutting of the adhesive tape or labeling tape facilitates one-handed handling in the laboratory and a clean cut. The dispenser for adhesive tape or labeling tape is easy to clean. Two cores are included to accommodate rolls with a core hole diameter of approx. 25 mm (1 inch) or approx. 76 mm (3 inches).

Adhesive tapes not included in scope of delivery

Item		PU	Item no.	Price in EUR
Dispenser for adhesive tapes		1	01172	149,99
Additional core for adhesive tape dispenser	approx. 25 mm (1 inch) / approx. 51 mm (2 inch)	1	01198	14,99
Additional core for adhesive tape dispenser	approx. 25 mm (1 inch) / approx. 76 mm (3 inch)	1	01175	14,99

### Dispenser for Parafilm® rolls

The dispenser for Parafilm® is designed to hold two standard rolls (50 mm) or one double roll (100 mm). It is made of aluminium and polyamide 12 and offers the possibility of clean and safe storage as well as easy removal of Parafilm® sealing film.

Parafilm® rolls not included in scope of delivery

Item	PU	Item no.	Price in EUR
Dispenser for Parafilm® rolls	1	01171	149,99

### Dispenser for glass pasteur pipettes

The dispenser for glass pasteur pipettes is made out of aluminium and polyamide 12 and polypropylene, has a front level indicator and holds up to 300 unpacked pasteur pipettes of a length of 150 mm or 230 mm. The dispenser is easy to clean and offers the possibility of hygienic storage and individual removal of the pasteur pipettes from the dispenser. Filling is performed via a hinged lid.

Pasteur pipettes not included in scope of delivery

Item	Туре	PU	Item no.	Price in EUR
Dispenser for glass pasteur pipettes	150 mm	1	01169	149,99
Dispenser for glass pasteur pipettes	230 mm	1	01170	159,99

### Stand rod adapter ø 12 mm

The stand rod adapter is attached to the slot rail like a module and provides an additional option for securing the SmartRack®. The supplied stand rod can be inserted into the stand rod adapter from all three directions in space and then fixed to an existing stand assembly, or other permanently installed stands in the laboratory. This virtually eliminates the possibility of the SmartRack® tipping over.

Item	PU	Item no.	Price in EUR
Stand rod adapter Ø 12 mm	1	01126	79,99

## SmartRack® | Additional accessories

#### **Drip tray**

The drip tray prevents the spread of liquids. In case of contamination, the drip tray can be easily removed from the SmartRack® and cleaned.

Item	Type	PU	Item no.	Price in EUR
Drip tray	for SmartRack®	1	01603	99,99
Drip tray mini	for SmartRack® mini	1	01604	89,99

#### Lid for storage box

The lid for the storage box is an optional extension to the storage box. Please note that upgrading the storage box with a lid is only possible for the storage box from order year 2024. To use the storage box with storage box inserts, the lid must be removed or the storage box must be used with the lid open.

Item	Туре	PU	Item no.	Price in EUR
Lid for storage box	for 2 storage box inserts	1	01924	35,00
Lid for storage box	for 3 storage box inserts	1	01923	50,00

## SmartRack® | Additional accessories

#### Lid for bin liner holder

The lid for the bin liner holder (01202) is an optional extension to the bin liner holder. Please note that it is only possible to add a lid to the bin liner holder for bin liner holders ordered from 2024 onwards.

	Item	PU	Item no.	Price in EUR
Lid for bin liner holder		1	01192	20,00

#### Slot rail with handles

The slot rail can be used in many different positions in the SmartRack®. A larger number of slot rails offers more options for placing modules through an optimal vertical arrangement, providing more scope for customizing the structure of the SmartRack® and adapting the module arrangement to the individual needs of each user.

Item	Туре	PU	Item no.	Price in EUR
Slot rail with handles	for SmartRack®	1	01601	74,99
Slot rail mini with handles	for SmartRack® mini	1	01602	54,99

## SmartRack® | Additional accessories

#### Protective cover for SmartRack®

Picture left: Version with zippers

The protective hood made of fiber-reinforced polyethylene (mesh film), which was specially designed for the SmartRack®, reliably protects the SmartRack® against dirt and dust particles as well as providing splash protection against aggressive liquids. The dust and particle protection hood is available in two versions that do not differ in size. As a basic model and as a model with two zippers on the edges of the front. For regular removal of the dust and particle protection hood and for use in unfavorable height conditions, we recommend choosing the model with zippers.

SmartRack® not included in scope of delivery

Picture left: Version without zippers

Picture left: SmartRack® mini cover with zippers

Item	Туре	PU	Item no.	Price in EUR
Protective cover for SmartRack®	with zipper	1	01609	139,99
Protective cover for SmartRack®	without zipper	1	01608	99,99
Protective cover for SmartRack® mini	with zipper	1	01613	89,99
Protective cover for SmartRack® mini	without zipper	1	01612	64,99

### **SmartCase**

#### **SmartCase**

SmartRack® not included, other equipment not included

The SmartCase is designed to transport and store the SmartRack®, a modular a modular organization system for laboratory workstations. Its aluminium case safely protects a SmartRack® inside and its contents from light and other environmental influences. The SmartCase consists of a lower part with four castors into which a SmartRack® can be placed. The upper part of the SmartCase has a cushion on the inside, which serves to fix the SmartRack® in the SmartCase as soon as the SmartCase is closed by the tension locks. This prevents the SmartRack® from slipping or tipping over. The SmartCase has a self-acting valve system which can be used to change the atmosphere inside the SmartCase by means of an external gas supply. This allows, for example, the temporary generation of a low-oxygen atmosphere in the SmartCase, which creates an additional safety level when transporting oxygen-sensitive, highly flammable substances or substances that spontaneously ignite in air. For further information on the durability of the atmosphere exchange in the SmartCase, please contact us at contact@better-basics.de.

The SmartCase includes the following components:

- A bottom section with four casters, four tension locks and an automatic gas outlet valve system.
- A top part with a handle, four put-on aids and an automatic gas inlet valve system
- A connector for connecting gas hoses of various diameters to the SmartCase

Item	PU	Item no.	Price in EUR
SmartCase	1	02101	949,00

## **SmartStand**

#### **SmartStand for well plates**

The SmartStand for Well Plates can be rotated 360 degrees, allowing the well plates to be filled from either side and the alignment to be adjusted quickly. The incrementally adjustable tilt of up to 40° makes the wells much easier to see from the user's perspective, which supports precise and ergonomic work when pipetting.

Well plate not included in scope of delivery

Item	PU	Item no.	Price in EUR
SmartStand for well plates	1	09001	129,99

### Customizing

#### Individualisation according to customer requirements

On request, we can customise our SmartRack® and its modules entirely according to your needs. Both the width and the height of the SmartRack® frame can be adjusted. If you need a wider or narrower version of the SmartRack® frame in your laboratory, your fume cupboard, on your safety workbench or in your experimental environment, we will manufacture the SmartRack® individually according to your requirements. Of course, you will also receive the corresponding slot rails in the appropriate length and in the quantity you require.

Our 3D printing process enables us to create every conceivable shape and size of module and holder for any laboratory glassware as well as any work equipment to customer specifications. Whether you need a specific function or simply special dimensions, we have the technical expertise to meet your requirements.

This means that the modules and mounts we create are tailored precisely to your needs and requirements.

In addition to the high precision and accuracy of our work, we also offer fast delivery times. Contact us today to find out more about how we can help you to improve the storage of your laboratory glassware and work equipment, making your work more efficient and safer.

We look forward to working with you to agree beforehand the costs of designing and manufacturing your custom modules.

To do so, simply contact us at www.customizing.better-basics-laborbedarf.de

#### **Examples for realised customisations based on customer requests**

Special frame sizes

SmartRack® frame - customisable in width as well as height

SmartRack® frame - extra wide

For a special requirement we manufactured an extra wide frame of the SmartRack®. Due to the width, this SmartRack® makes optimal use of the working space in our customer's laboratory.

#### Special modules for laboratory accessories and laboratory glassware

#### Holder for special glassware

Double holder for glassware with ST10

For a project, a customer needed a double holder for glassware ST10. The module allows glassware with standard ground joint ST10 to be easily hung next to each other. The specially shaped recess prevents the glassware from falling out.

Of course, adaptations of this kind are also conceivable for other glassware.

#### Special modules for laboratory equipment

#### Holder for dandyVice wall mount

In cooperation with dandy innovations, a module for mounting a dandyVice wall bracket was developed. The combination of dandyVice wall mount and holder module from Better Basics Laborbedarf makes it easy to use the dandyVice in the SmartRack®.

The general terms and conditions of Better Basics Laborbedarf GmbH apply.

#### **Technical information:**

- All products are washable with water and mild detergent. In addition all components can be wiped with alcohol-based disinfectants.
- The plastics and metals used are 100% recyclable.
- Our products are autoclavable (maximum temperature 121 °C).
- The plastic elements are resistant to heat deformation under normal laboratory conditions.
- To gently clean the anodised aluminium rail, we recommend using a pH-neutral hand-washing detergent. Ensure that the hand wash detergent is odourless and contains no perfumes, greases or additives. Clean the slot rail by hand and rinse thoroughly with clean water.

#### Note on joint tolerances for ST14:

- Maximum outside diameter at the narrowest point of the cone joint: 17.2 mm (larger diameters are too wide for the holder and cannot be held)
- Minimum outer diameter at the widest point of the cone joint: 18.0 mm (smaller diameters are too narrow for the holder and would fall out)

#### Note on joint tolerances for ST29:

- Maximum outside diameter at the narrowest point of the cone joint: 31.4 mm (larger diameters are too wide for the holder and cannot be held)
- Minimum outer diameter at the widest point of the cone joint: 32.8 mm (smaller diameters are too narrow for the holder and would fall out)

**IMPORTANT TO NOTE**: The SmartRack® and SmartRack® mini as well as the SmartCase and SmartStand are not suitable for the permanent storage of hazardous substances.

We reserve the right to make technical changes, material or model changes, errors and misprints excepted. If you have any further questions, please do not hesitate to contact us at contact@better-basics.de

#### Our request to you

A product like our SmartRack® is only as good as its users. With our roots in the Leibniz Institute for Polymer Research Dresden, our company Better Basics Laborbedarf stands for the tradition of "Made in Germany" quality. We feel in multiple aspects committed to this quality label for German companies, which stands for high innovative strength. Even beyond our product catalogue, the same applies for us at Better Basics: Just contact us if you have ideas for extensions or improvements or if you notice something in your daily laboratory routine that we should optimize right away.

We want to create the best possible working environment for you in the laboratory and we are grateful for any comments and inspiration. We can jointly shape the future of laboratory work by cooperating with scientists and researchers. Just like you, we're always looking for a way to make our world a little better every day.
